The Perfect Family Recreational Canoe

Congratulations on the recent purchase of your new canoe! You have purchased a canoe from one of the nations leading manufacturers of small boats. Your canoe represents years of commitment to product design, excellence in engineering and quality in manufacturing. With proper care and maintenance your canoe should last for many years to come. Please call our helpful and knowledgeable Customer Support Department if you have any questions or concerns.

MATERIALS

Your canoe is manufactured from High Density Polyethylene (HDPE). It is a very durable material. Our specially formulated HDPE has an ultra-violet inhibitor blended throughout the material to reduce color fade and maintain its strength. Polyethylene is a somewhat flexible material some with memory. This means it has a tendency to return to its original molded shape if distorted.

BOAT SET-UP

Paperwork

The following documents should come with your new canoe.

Warranty Registration Card

To properly register your canoe with KL Industries for warranty validation please fill out the warranty registration card completely and mail back to KL Industries or register online at www.klindustries.com. The serial number can be found on the outside of the hull in the back just under the gunwale. See Photo #1.

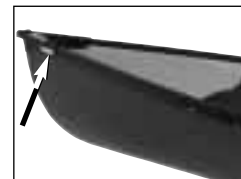

Photo #1 Serial Number
Location

Manufacturers Statement of Origin (MSO)

Some states may require a MSO for proper registration of your canoe. Please check with your local dealer or state licensing bureau.

Owners Manual

Keep your owner's manual for future reference. It is a good idea to write down the following information:

Serial Number _____

Date of Purchase _____

Purchased from _____

Applying Decals

Before applying boat registration decals (if required), clean the area with alcohol or any solvent that does not leave a residue. Make sure solvent is put aside and is dry. Using a propane torch, lightly pass the flame back and forth over the area where the decals will be applied. **Don't try to heat the surface.** This process will enhance the adhesion of the decals.

BEFORE LEAVING SHORE & SAFETY PROCEDURES

- Check the weather conditions especially wave conditions in open water. Anticipate changing weather conditions and act accordingly.
- Review the maximum capacities on the capacity plate. Ensure you are safely within these limits.
- Make sure all passengers are wearing Personal Flotation Devices.
- Take an extra paddle.
- Let someone know where you are going and when you will return.

CARE AND MAINTENANCE

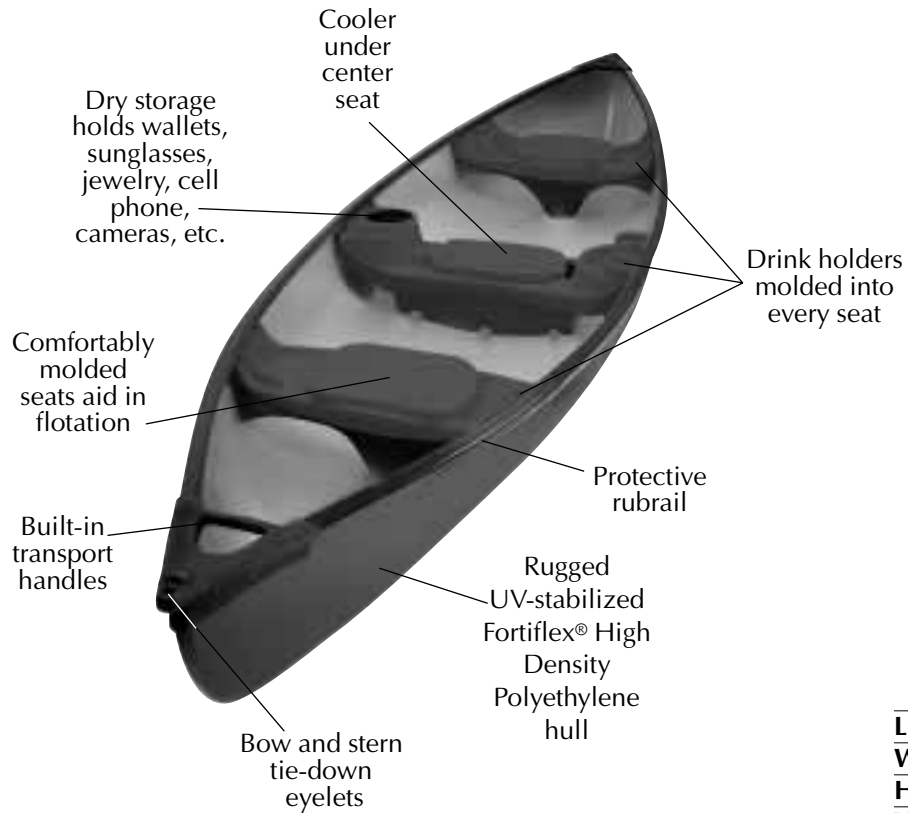

With minimal care and maintenance, your boat has been designed to provide you with many years of enjoyment.

- Your canoe can be cleaned with warm water and any standard detergents. More difficult stains, such as brackish watermarks, may be cleaned with a petroleum based cleaner. Read the manufacturers' instructions carefully before using any cleaner.
- Periodically check the integrity of all fasteners to ensure proper use.
- Polyethylene is a somewhat flexible material with some memory. This means it has a tendency to return to its original molded shape if distorted. If this occurs follow these steps:
 1. Relieve the pressure that caused the dent or distortion by supporting the boat differently or removing gear.
 2. Place the boat in the warm sun. Usually the south side of a building is the warmest spot. As the boat warms up usually (but not always) the boat will return to its original molded shape. This may take a few hours or a couple of weeks depending upon outside temperatures and the degree of distortion.

STORAGE

- If possible, it is best to store your canoe inside for the winter otherwise store upside down. Do not store the canoe on sawhorses right side up. If it's stored upside down, position the supports about 1/3 of the way in from each end. Do not pile gear on top of the canoe.

Canoe Features

Specifications

Length	15'6"
Width	40"
Height	18.5"
Weight	95 lbs.
Capacity	800 lbs.

WARRANTY

Please call us at 231-733-2725 if you have questions or a problem with your boat. Do not return the boat to the retailer.

KL Industries, Inc. warrants to the original owner of any KL Industries boat. Any part of the boat that is defective in material or workmanship will be repaired, without charge, at the purchasers' local dealer or at KL Industries.

For personal use, this warranty shall apply for a period of three years on the deck and hull and two years on parts from the date of retail sale. For commercial use this warranty shall apply for a period of one year on the deck, hull and parts from the original date of purchase. Any warranties from suppliers of component parts supersede KL Industries' warranty. This warranty covers use under normal conditions and does not cover damage caused by accidents, alteration, or misuse.

Freight to and from a local dealer or manufacturing plant is at the owners' expense.

Warranty is not valid unless registration card is returned within 30 days of retail purchase.
